Brick Soling Construction in Bhandarkhola Village:

During the Union Dialogue held in June 2026, the poor condition of the road from Mahabub's Shop to Aziz's House in Bhandarkhola Village was identified as a priority community issue. Following the dialogue, Bidyanandakati Union CSO maintained regular follow-up with the Union Parishad and continued advocacy through joint initiatives with community members. As a result of these sustained efforts, the Union Authority initiated brick soling construction on the road, significantly improving local connectivity and demonstrating the CSO's effective role in linking community needs with local government action.

Improved Rural Connectivity through Joint Advocacy:

The lack of an all-weather connecting road between Bayhsa and Bagdah Village was raised as a community priority during the June 2026 Union Dialogue. Majidpur Union CSO actively followed up the issue with the Union Parishad and engaged relevant stakeholders through continuous advocacy. In response, the Union Authority initiated construction of the connecting road, improving rural communication and highlighting the importance of CSO-led advocacy in translating community priorities into local development actions.

Strengthening Community Access through CSO Follow-up:

During the June 2026 Union Dialogue, community members highlighted the poor condition of the road from Bhaluka to Chandpur Daspara as a key local concern. Bhrommorajpur Union CSO carried out continuous follow-up and maintained close coordination with the Union Authority after the dialogue. As a result, brick soling work was completed, ensuring safer and easier movement for local residents. This initiative reflects how sustained CSO engagement and joint advocacy can strengthen collaboration between local government and communities while contributing to tangible social change.
